

Agip FORMULA MS B04

SAE 5W-30

ACEA A3/B3, A3/B4, C3

API SL/CF

Special MID-SAPS fuel efficiency engine oil for gasoline and diesel engines at prolonged oil change intervals according to the particular manufacturer's specifications.

Characteristics (typical figures):

Agip FORMULA MS B04	Unit	5W-30	Test method	
Kin. Viscosity	at 40 °C	mm ² /s	75	DIN 51 562
	at 100 °C	mm ² /s	12,4	DIN 51 398
Viscosity index			165	DIN ISO 2909
Density at 15 °C	kg/m ³		851	DIN 51 757
Flashpoint o. C.	°C		248	DIN ISO 2592
Pourpoint	°C		-39	DIN ISO 3016

Properties and Performance:

Agip FORMULA MS B04 is an unconventional high-performance engine oil with low ash content that had been developed for engines of the EURO 4 generation with diesel particle filter system (DPF), however is also applicable in diesel engines without DPF and in gasoline engines of BMW.

Applications:

In Mercedes Benz passenger diesel engines with DPF engine oils according to MB Sheet 229.31 are prescribed. They are not admitted for gasoline engines with the regulation MB Sheet 229.1, 229.3 respectively 229.5.

In BMW diesel engines with DPF only oil with the approval BMW LL-04 is admitted to be re-filled. Generally this oil covers the BMW Longlife-01 completely.

Peugeot and Volvo also recommend the application of MID SAPS engine oils for the 5 cylinder diesel engine series 60, 70, 80 and 90 (manufacturing year 2004).

Furthermore this oil is suitable for all vehicle types with the manufacturer's specification ACEA A3/B3/B4, ACEA C3 as well as API SL/CF.

Specifications:

ACEA A3/B3, A3/B4, C3

VW 502 00 / 50500 (Level)

BMW Longlife 04

API SL/CF

MB Sheet 229.31
