

# AGIP CROSS 2T

AGIP CROSS 2T is a low smoke 100% synthetic lubricant for very high-powered two-stroke engines, both air and water cooled. It The product has been expressly designed for use in cross, trial and enduro bikes. Though it can be employed in automatic oil injection systems it gives the maximum performance when premixed. It can also be employed with unleaded gasoline.

## CHARACTERISTICS (TYPICAL FIGURES)

### AGIP CROSS 2T

Viscosity at 100°C	mm <sup>2</sup> /s	9,8
Viscosity at 40°C	mm <sup>2</sup> /s	57
Viscosity Index	-	158
Flash Point COC	°C	82
Pour Point	°C	-54
Mass Density at 15°C	kg/m <sup>3</sup>	0,875

## PROPERTIES AND PERFORMANCE

- AGIP CROSS 2T ensures excellent lubrication even at the highest temperatures.
- The product minimizes the risks of preignition and ring sticking
- The exclusive formulation imparts excellent detergency, thus minimizing the formation of sludge and deposits in all parts of the engine.

## SPECIFICATIONS

AGIP CROSS 2T meets the requirements of the following specifications:

- API TC
- JASO FC
- ISO-L-EGD
